

Privacy Statement

General:

The Mississippi State Chemical Laboratory maintains this website. We are committed to protecting our visitors' privacy, and recognize the need for appropriate protection and management of any personal information. This policy may be updated periodically.

Except for records protected by law from disclosure, most information received in the course of doing state business is a matter of public record and is subject to public inspection.

The majority of the Department's web pages are accessible without providing any personal information. We may track the Internet address of the domains from which people visit us, the link from which people link to our site, where they exit from, and how they flow through the site. The Department may analyze this data for trends, site composition and organization, and statistics.

Cookies:

There is a technology called "cookies" which can be used to provide you with tailored information from a website. A cookie is an element of data that a website can send to your browser, which may then store it on your computer. Some of the Department's web pages may use cookies to assist in your navigation of web based applications. You can set your browser to notify you when you receive a cookie, giving you the opportunity to accept or reject it. If you choose not to accept the cookie, you may not be able to use these web applications, but you will still be able to browse the majority of the Department's website.

Links to Other Web Sites:

The Mississippi State Chemical Laboratory website may contain links to other websites outside of the Department's. The Department is not responsible for the privacy practices or the content of these websites.

Contact Information:

If you have any questions or comments about the Mississippi State Chemical Laboratory privacy statement, please send an email to info@mscl.mstate.edu .
